## Summary

I am a fourth-year software development student seeking a job that will challenge my skills in software development and teach me more skills and techniques that I can apply throughout my career. I am dedicated and ready to commit to a long-term employment opportunity. I am wacky and weird, but overall funny and friendly. I am always ready to learn the next up-and-coming technology and discover how I can apply it to my job.

## Education

**Green River College** – Auburn, WA

2016 to Present

Bachelor of Applied Science, expected June 2020

Major: Software Development (Applied Computer Science), GPA: 3.36

Relevant Coursework:

- Object-Oriented Programming
- Data Structures
- Systems Programming (bitwise operations, exceptions, threads, networking)
- Full Stack Web Development
- Algorithms
- Agile Development Methods
- Database Fundamentals
- Web Application Development

## Experience

**Stafford Suites** – Sumner, WA

2018

Waiter

- Worked on the wait staff for an assisted living community
- Gained interpersonal skills between coworkers and residents

**Graystonemc.com** – Online

2017-2018

Co-Owner

- Created and developed for a communal Minecraft server
- The server brought in more than \$300 in donations from the community
- I set up the server-side software and the database and was active in decision making process of the server

**Washington Technology Industry Association** – Auburn, WA

2019

Developer

- Developed a fully functional prototype for a project that connected teacher with experts willing to speak in those teacher's classes
- I worked with a team of software development students to bring this project out of the client's imagination and into the real world
- I worked on the backend, setting up the database, various queries, and PHP scripts
- I worked on the frontend to create forms and design the layout of the site to maximize likability for the users and the client

#### **Minidoka Pilgrimage Planning Committee – Auburn, WA**

2019

##### Developer/Scrum Master

- Developed an administrative portal for the committee to better keep track of their data
- I worked with a development team, using agile development methods, to develop the maximum business value for our client
- We used HTML, CSS, JavaScript, PHP, and SQL and several libraries within those languages to create what our client needed

#### **Green River College – Auburn, WA**

2019

##### IT Tutor

- Tutored students that were taking classes that I had already taken

### **Achievements and Activities**

- Gold Medal of Achievement with Honors (Highest possible achievement in the Royal Rangers)
- 1<sup>st</sup> Degree Black Belt in Taekwondo
- Volleyball Regional Champion
